

EcoBlu®

Single-Spray Jet

Nozzle FKC series

EcoBlu FKC series Single-spray Jet Nozzle generates straight-through flow from the water base to form a crystal clear transparent water column. It has a ball joint that can be pivoted to 20° from the fountain plain.

When vertical spraying, the peak forms embosses and the inclined form in parabola shape. The line is sprightly smooth and it's usually arranged in a group of the fountain.

Model	Dimension (mm)					
	A	B	C	D	E	F
FKC-10-316	9	13	72	115	32	43
FKC-10	9	13	72	115	32	43
FKC-15	12	17	143	204	46	60
FKC-20	14	19	157	230	57	73
FKC-30	28	34	285	295	85	107

Model	Code	Material	Join Size	Water Pressure (Bar)	Discharge Water (L/min)	Fountain Height (m)
FKC-10-316	N-1121	316 Stainless Steel	1"	0.2 - 0.8	25 - 100	0.4 - 6
FKC-10	N-1120	304 Stainless Steel	1"	0.2 - 0.8	25 - 100	0.4 - 6
FKC-15	N-1125	304 Stainless Steel	1.5"	0.3 - 1.2	60 - 150	1.0 - 7
