## Saltwater System Maintenance

# Pool & Spas Checker

The EcoBlu EcoBlu Pool & Spas checker is an essential tool for the adjustment of salt levels. **The Operating Range can be measured from 0-10ppt.** It measures salt level easily, so it can be done without guesswork.

The maintenance of a balanced salt concentration in the saltwater pool and spas are essential for proper sanitation and comfort. The system delivers chlorine in a small amounts making it less offensive. This replaces the use of chloramines which can cause irritation.
